

## **Three Projects May 2010**

The Park/Sanctuary project began with the idea of making the Stuart Sanctuary , which had been given to the Arundel Community as a whole, available to the Arundel Community . The "HOW" had never been brought to the table . This project , which is still a name only , has now been altered to include Arundel's public "park" areas such as the land bordering the Bevin Lake Creek in the village next to the ACH .The fact that there are by-laws , environmental laws , the CPTAQ , the T.C.Stuart Will and citizens' concerns/ interests to consider in all /some cases , necessitates lots of research ,study and discussion . From it's conception the project was intended to involve a diversity of Arundel's population including people from Swail's Corner , ALBERO , the village , White's Rd , Ch.de la Montagne and the #327etc ....Moreover in accordance with our mandate it's objective was to maintain and improve the health of the environment while educating and expanding consciousness with regards to all aspects of Nature . The Parks project is a profoundly "Green " project .

I'm hoping that people who are interested in any or all aspects of the project will get involved in the committees that will be organized . We want people who are open and ready to participate creatively,and positively towards a WIN/WIN situation .

I keep repeating my earnest belief that Arundel is our "collective " responsibility . We must work together constructively to nurture , maintain and build our community . The avenues for discussion must be kept open .

Two other projects to be undertaken this year are 1)the summer camp in Huberdeau with an emphasis on bi-lingualism, and 2)a Quarterly newspaper .
